

How do you know if your school needs MOAT (Managed Ongoing Awareness and Trust)?

Crisis Management

If an emergency situation unfolds, does your school have pre-established notification messages approved and ready to send out?

How can you ensure all students and faculty will receive the emergency alert? Do you have procedures in place if an alert method fails?

Emergency Preparedness/Terrorism Awareness

Do you have documentation to demonstrate emergency plans and crisis management procedures have been updated and appropriate employees are aware of their roles and responsibilities before, during and after an incident occurs?

Bullying/School Violence

Have you implemented a school bullying policy and do all faculty, students and employees understand their responsibilities for preventing bullying and peer abuse?

Do you have a confidential online incident reporting system that enables students and faculty to securely report suspicious incidents, risks and threats?

Information Privacy

Do all personnel understand their legal obligations (FERPA, Clery Act, HIPAA) for sharing and protecting of sensitive and personal information across employees, faculty, vendors, etc.?

If asked for personal information regarding students, do your faculty members understand when this information can be shared and when it must be protected?

Identity Theft

Has your organization taken steps to ensure privacy and confidentiality of your student's personally identifiable information?

Environmental and Social Responsibilities

As environmental sustainability becomes more critical, has your school taken steps to improve energy efficiency and reduce your carbon footprint?

Risk Management

Upon an auditor's request, does your organization have documentation of all internal controls, policies, procedures and plans with respect to your regulatory obligations?

Ethics and Reputation

Has your organization taken steps to engage employees and promote a culture of trust and accountability?

Business Continuity

Does your organization have documentation to demonstrate Pandemic Flu plans and procedures have been updated and communicated to all appropriate personnel?

Vendor Management

What legal rules apply to the information and data that is kept or handled by vendors, partners and other third-parties? Have all third-parties signed off on your organizational policies and procedures?
