

MOAT vs. Megaphone Management

	MOAT <small>Managed Ongoing Awareness and Trust</small>	E-mail	Shared Drive	Intranet	General Training	Alerting System	Binder
Situational Awareness	✓	✓	✓	✓		✓	✓
Accountability	✓						
Confidentiality	✓						
Secure Information Sharing	✓			✓			
Availability from Office, Home, and Remote	✓	✓			✓		
Accessibility by Third-Parties	✓	✓			✓	✓	✓
Audit-Ready Documentation	✓				✓		
Costs	\$	\$\$	\$\$	\$\$	\$\$	\$\$	\$\$

⌘ One Affordable Price Per Person Per Year

- No software and no hardware implementation
- No additional personnel needed
- No network or firewall changes required
- No file cabinets full of documentation
- No client or VPN software needed
- No More "I didn't get that e-mail" Responses

\$\$ Multiple Expensive Costs Associated with:

- Manual labor and resources managing paper-based binders
- Technical support personnel
- Web servers, data center costs and bandwidth
- Software and hardware and ongoing maintenance
- Paper-based documentation and storage
- Electronic storage, data center cost, backup tapes, etc.
