

Schools of Banking Presentation

Security in a Technological Age

Awareity is a leader in providing proven solutions for the financial sector. Recently the Nebraska Schools of Banking invited Rick Shaw, CEO and President of Awareity, to present to participants at the 2008 Operations School and the 2008 School of Banking Fundamentals.

Rick Shaw provided insight on the Top 5 topics of interest as voted on by the attendees which included:

- 1. Internal Controls, Information Sharing and Dissemination of Policies and Procedures**
- 2. Examination and Compliance Concerns for Information Security/Privacy**
- 3. Risk Assessments and Vulnerability Assessments**
- 4. Identity Theft, Phishing, Pharming, Spyware, Keyloggers and Social Engineering**
- 5. Top 10 Security Incidents – Case Studies and Lessons Learned**

The Awareity Way is a better way for financial organizations to update, implement and manage Internal Controls and Human Factors Risks and the return on investment is impressive along with proven 'CYA' advantages and benefits.

All financial institutions HAVE TO and NEED TO take immediate actions to improve their Internal Controls and manage their Human Factors Risks...see how you can with ***The Awareity Way***.

About Awareity

Awareity is the leader in Individual Awareness and Accountability Services (IAAS) and risk management tools for Human Factors. Awareity's services empower management to implement awareness and accountability at the individual-level across one or multiple organizations on an ongoing basis, modernizing outdated methodologies while also saving money, saving time, saving lives and saving reputations.

Contact [Awareity](http://www.Awareity.com) to see how your organization can achieve compliance and improve risk management.
